[From the Galaxy.] SOME LO'. ER'S CLEAR DAY. Why am I not with thee?

Oh, see how blue the sky; 'tis surely springing
From out thy thought to bend and rest on mine,
How still, how clear, though all the town is ringing
With voice and din to vex me as I pine
To be with thee. The noise repels me noi;
For swiftly through the cloudless air I travel,
Thy heart itself the distance spans for me;
Oh royal road, on which my thoughts unravel
Time, space, and tumult, on their quest for thee!
Repel me not.

Wherefore must I be here, When in this very day that God is making
He seems to summon each to seek its own!
The blossom to the sumshine is awaking,
Like answers like, and nothin is alone,
While I am here.

I long to see thy face; My heart too fatefully and swiftly mounting Demands to sate its hunger in thine eyes,—
Ah, not content its lete delight recounting.
It must go seek its fountains where they rise
Beyond thy face.

Too bold, my heart, too bold!
Wilt thou not fright her with thy selfish yearning,
And what art thou that she should harbor thee? Ah, what is she, whose gracious might is turning, istless turning this poor heart to be so bold, so bold!

Oh never seek a name For this sweet sorrow—let it unnamed rule me, Consent of both to it is name enough: Does God with thee conspire to bless and school me, Oh then the sweetest word we speak is rough, And not a name.

What hammer turned this spell? Whether I dream or work, it holds me ever, I dream herself, I work us one that sleeps; My labor's forge no temper yields to sever This sky and sun slaked tyranny that keeps

Our pulses weld the chain, My heart's clear day that melts, thy clearness greeting; nl't never speak the word nor send the glance, with a mood transfix me e'er so fleeting, t shall destroy me with deliverance, Thy self to gain. Thy self to gain.

CITY FINANCES.

At the last meeting of City Council, Alderman RAVENEL, Chairman of the Committee of Ways and Means presented the following Report and Resolutions, which were adopted :

tions, which were adopted:

The Committee of Ways and Means, in submitting to Council a bill amending the Ordinance for raising supplies for the year 1867, respectfully ask to state their reasons for so doing.

It is now eighteen months since the present Council was inaugurated. The task of reconstruction of municipal affairs was commenced with an empty Treasury, and with a population disheartened and impoverished. The first effort was to restore confidence and the city credit. The public buildings were dilapidated, and rapidly falling into decay for want of immediate and necessary repairs—the streets imperfectly and but partially lighted, and in bad order, as well as the sidewalks and gutters—tidal and other drains requiring cleansing, and the Health Department, imperatively demanding energetic measures, without recleansing, and the Health Department, imperatively demanding energetic measures, without regard to cost—the Fire Department in want of much, to render it as efficient as it had been, and a police to be established for the protection of fifty-five miles of streets in Charleston proper—the maintaining of the charitable institutions of the city, which were filled with persons impoverished and unable to support themselves. These things, and many others, all required immediate action, and much money. ind much money.

The first important act of your administration was

to pass the Tax Bill to raise supplies for the year 1866. A large amount of these taxes was paid in city bills, which, although reducing the in-debtedness of the city, were unavailing to the Treasury, as by law these bills could not be redebtedness of the city, were unavailing to the Treasury, as by law these bills could not be reissued, although bund to receive them for all dnes of taxes, cc., to the city. This, of course, curtailed the receipt of available money; and although much pressed your Committee could not suggest to Council an increase of taxes to a bill already considered by many as enerous, and perhaps with reason, but nevertheless imperatively necessary. Under circumstances of embarrassment, your Committee asked and obtained your consent to the borrowing of money, which they accomplished at a high rate of interest; but it could not be avoided, as it was deemed expedient to do this rather than as it was deemed expedient to do this rather than disappoint the creditors of the city, and to violate its good faith. Targe accumulations of arrearages of interest due to the holders of city stocks and bonds, pressed heavily on Council, and public opinion called loudly that this just claim should have its earnest consideration. Council therefore passed a bill directing that the said interest should be funded, and we are glad to say that most of

hese creditors acceeded. On the first of April, 1866, just five months after On the first of April, 1866, just hive months after the reestablishment of the city government, we had the satisfaction of paying the quarter's inter-est due on that day, on the city debt. This, as we had hoped, at once created confidence, reassured our citizens, and imparted an availability and value to city securities which no other corporation in The State enjoyed.
Our city was proud, and justly so, of having set

Our city was proud, and justly so, of having set so good an example. It was a strong and important manifestation that we were determined at once to begin the work of reconstruction, and that in good earnest. It has been alleged that Council was premature in paying its interest—if this was a fant, it is certainly pardonable, as it enabled many persons to meet pressing obligations and to provide for their immediate wants. It caused the circulation of money, and its wholesome influence was felt throughout the city. It is but justice to our tax payers that we should here state that to their sense of propriety and justice is state that to their sense of propriety and justice is Council indebted for the means with which they achieved this desirable end. They responded to the call on them for taxes, when they had but slender means, showing thus a strong evidence that they supported Council in its efforts to fulfil its obligations. We are happy to state that the inits obligations. We are happy to state that the interest was all raid promptly each succeeding quarter, amounting in all to about three hundred thousand dellars. But, unfortunately, we have had a pressure on us, which, for the moment is discouraging; but we must nerve ourselves and renew ourselves and zeroew of purpose and the support of our catzens. It was a matter of deep regret and of much reflection, and only after the exhausting of every expedient that your Committee asked Council to authorize his Honor, the Mayor, and the City Freasurer, to issue certificates of indebtedness to meet the last quarter's interest. But it was either to do this or to deprive the holders of city securities of any way

it had been possible to obtain it.

We deem it best to state frankly the financial condition of the city, being satisfied that the good sense of our community would sustain us.

In passing the Tax Bill it must be confessed that Council was a trated by lenity, and a lesire to make the burthen of taxation as light as possible, and extended the time of final payments to 29th
June next, and should any be delinquent then, that an interest, at the rate of 7 per cent. per annum, was to be charged. Good feeling here ignored our necessities, which required that the last day of payment should have been 1st April on all subjects of taxation, except those provided by law to be paid monthly; moreover the interest, if the tax was not paid then, should be made commensurate with that current. The bill we are about to submit purports putting it on this footing. Council must not forget that the financial changes in our State have been very great since our Tax Bill was passed.

The repeal of the Ugury Laws has made money virtually a commodity, and its value enhanced or depressed according to the demands for it. Therefore, our citizens must expect to meet the change and conform to the result effected by it. It may be said that a rate of interest higher than It may be said that a rate of interest higher than seven per cent, is hard and ruinous to those citizens who are unable to pay their taxes, but we must examine the subject fearlessly, with a determination to do justice alike to all. The tax payer, who responds promptly, demands at our hands, as his right, that all who enjoy the advantages and protection of the city should be made alike with himself to bear a portion of the public

burthen.

It has been alleged that Council had been too indulgent to delinquents. It is true Council always leans on the side of mercy, and has extended at times, under circumstances of peculiar distress, an extension of time, which the cases seemed imperatively to demand. It is due to the public to say that the arresrages of taxes during the war, and the taxes of the last year, have been paid almost beyond our expectation, especially when we consider the poverty of our neonle. we consider the poverty of our people.

It is almost unnecessary that we should urge on Council the necessity of great economy in the administration of its affairs. Our actual wants are

more than we can manage with comfort.

In conclusion we have only to say that all of our efforts to manage with success the finance of the city will be unavailing, unless sustained by the tenance and support of our citizens.

New Orleans Market.

NEW ORLEANS, April 5.—Corron—The market opened quiet this morning, and hiss continued dull and inanimate throughout the day. The receipt of the 11 A M dispatches, reporting increased depreciation at New York, materially contributed to the general inaction. The supply was sufficient to meet ordinary requirements, and factors who offered were generally induced to sell, and evidently disposed to make additional concessions; but the principal portion of the buyers showed no desire whatever to operate, preferring to await the receipt of later intelligence. "The downward movement in Gold and Exchange also exercised an adverse influence. Under these circumstances the sales were extremely light, the aggregate business at the close summing up barely 1600 bales, nine brokers participating in the business. Prices indicated further irregularity, and, on the whole, an easier feeling, the market closing unsettled at our quotations. New Orleans Market.

MATANZAS, April 2.—CLAYED SUGAR.—There has provailed consid rable dullness in our market for this staple since our previous report of the 19th ultimo, the operations having been limited to the small cypher of 9000 boxes, which have been necessarily wanted for the complement of cargoes of the several vessels loading for Europe. These sales have been generally closed at very irregular rates, varying at 7½ to 7 rs, basis No 12 (D s), and in very few instances trifling lots were obtained at 6½ rs, which, however, cannot form any criterion, inasmuch as they were realized under special monetary conditions.

Muscovadoes—No material change has taken place in regard to this article since our previous report, owing to the good demand and the certainty that the production of these descriptions will fall considerably, short; sellers have been compelled to give the rates asked.

Molasses.—The good demand noticed in our previous report has kept unaltered up to the end of last week, when the most urgent wants of shippers being satisfied, the market has commenced to exhibit less activity. The sales have reached about 3500 hhds, mostly 6 rials per keg for clayed, although some parcels for immediate delivery, in new casks, and pure prime quality, obtained 5½ rials keg. 400 hhds Centritugal, in old casks, at 4 rials. Muscovado at 630½ rials keg.

Crops—Although receipts thus far show an excess over la-t year, they are estimated at more than half the present crop, and accordingly no doubt can be entertained in regard to its shortness, compared with the previous one. Some estates have already finished grinding, and their crops result in a deficiency of about one-fourth from last year, the cause of which being mainly attributed to the severe drought experienced, and which prevails still in many districts. the severe drought experience.

Received during the month of August, 1866.

LOMDON, July 25, 1867.

MESSES. CHICKERING & SONS—Gents: I have much pleasure in enclosing document signed by the first composers, musicians and professors in Europe. I held your Pianos in such high estimation (vide my certificate) that I felt it my duty to take one of them with me to Europe, to ascertain the opinion of my professional brethren. The enclosed certificate will prove how unanimous they have been on the subject. I beg to forward, at the same time, a letter I received from my friend, Mr. Collard, which I am sure must be gratifying to you.

ing to you.

I have the honor to be, gentleman, yours very truly
JAMES M. WEHLL.

James M. Welli, Eq.:

My Dean Sin: I have great pleasure in asking youte convey to Mesers. Chickering the expression of my highest approval of their instrument. It is, I consider, not merely the best instrument of American manufacture that I have tried, but one of the finest Grand Plancies that have even come under my chearyation; and

fortes that has ever come under my observation; and the Messrs. Chickering may well be proud of having turned out from their manufactory an instrument which, for touch, quality, power and workmanship, it would be very difficult to surpass in any part of the

Firm of Collard & Collard, Piano-forte Manufacturers

James M. Wehli, Esq.:

MY DEAR SIR: As you are going back to the United States, I must beg you to remember me kindly to the Messra. Chickering. Tell them I was delighted with their Grand Plano-forte—as good an instrument, I think as was ever turned out, both in touch and ter .

Wishing you, &c., I remain ever tilly.

H. F. BROADWOOD,

Firm of I. Broadwood & Bons, Plano-forte Manufacturers, London.

Mesers. Chickering & Sons:
GENTS: I have just been invited by Mesers. Collard to
try a Grand Plano-forte manufactured by you, and I
have no hesitation in endorsing the opinion of my old

nave no nestator in the contract of the friend, Mr. C. D. Collard, viz: That it is the finest instrument I ever played on.

Believe me, gentlemen, most faithfully yours,

J. L. HATTON.

Testimonials from the most distinguished Artists in Europe to Mesers Shickering & Sons:

London, July 25, 1866.

Having played upon a Piano-forte made by Mesers.
Chickering & Sons, of Boston and New York, I have much pleasure in testifying to its general excellence.

For sweetness and brilliancy of tone, delicacy of touch and magnificent power for concert purposes, of consider it a really Grand Piano-Forte, and Decided by the Best I have seen of American Manufacture.

ARABELLA GODDARD. [GIULO REGONDI.]
G. A. ORBORNE.

Among the chief points of excellence of the Chickering Pianos, of which speak the renowned artists in their congratulatory testimonials to the Messrs. Chickering, are the greatest possible depth, richness and volume of tone, combined with a rare brilliancy, clearness and perfect evenness throughout the entire scale; and, above all, a surprising duration of sound, the pure and sympathetic quality of which never changes under the most delicate or powerful touch.

During the past forty-three years this firm has manuactured

80,000 PLANOS.

In the construction of which they have introduced every known and valuable improvement. They have invaria-bly been selected and used by all of the world's ac-knowledged great artists who have visited this country professionally, both for private and public use.

THALBERG.

I consider Chickering & Sons' Pianos, beyond com-parison, the best I have ever seen in America.

GOTTSCHALK.

I consider Chickering & Sons' Pianos superior to any

in the world.

They are unrivalled for their singing qualities and for the harmonious roundness of their tone. There is a perfect homogeneity throughout all the registers. The upper notes are remarkable for a clearness and purity which I do not find in any other instrument, while the base is distinguished for power without harshness, and for a magnificent sonority.

WEHLI.

Your Pianos are superior to any I have ever seen in

Your Planos are superior to any I have ever seen in this country or in Europe.

I have never heard a tone so perfect; it yields every expression that is needed in music, and its quality is capable of change to meet every sentiment. This is a rare power, and is derived from the perfect purity of its tone, together with its sympathetic, elastic and well balanced touch.

POZNANSKI.

During the past eight years I have constantly played

upon the justly celebrated Erard Pianes; yours are the only instruments that I have found, either here or in Europe, to equal them in all their points of excellence.

It may be satisfactory to our patrons and friend

It may be satisfactory to our patrons and mong the public at large to state that testimonials have been received from all the leading artists who have visited or are now residing in the United States, a few of whose names, besides those above, we append:

DRUGS, CHEMI! ALS, ETC. SARATOGA-**"EXCELSIOR" SPRING WATER**

THE WATER OF THIS SPRING IS BELIEVED TO be unequalled by that of any-other in the far-famed valley of Saratoga. Its virtues are such as have secured it the high encomiums of all-who have used it, possessing, as it does, in an eminent degree, cathartic, diuretic, alterative and tonic qualities.

From SAMUEL HENRY DICKSON, M. D., Professor Practice of Physics, Lefferson Medical College, D. 19.

From SAMUEL HENRY DICKSON, M. D., Professor Practice of Physic, Jefferson Medical College, Philadelphia, formerly of Charleston, S. C.:

PHILADELPHIA, November 15, 1865.

1 have been for a year or more past in the habit of taking the water of the "Excelsior" Spring of Saratoga. Accustomed during the great portion of my invalid life to use the different waters of the several fountains which boil up along that remarkable valley, dependent, indeed, upon them for much of the comfort I enjoy, I am ratisfied that the Excelsior Water is as well adapted as any other among them, if not more so, to the purposes for which they are generally employed. It is very agreeable, strongly impregnated with the carbonic acid, lively and sparkling. * * I can heartily and conscientiously recommend it to all who need a gentle cathartic and dinretic. SAMUEL HENRY DICKSON, M. D.

THE SALE OF THE PLANTATION BIT-TERS is without precedent in the history of the world. There is no secret in the matter. They are at once the most speedy, strengthening health-restorer ever discovered. It requires but a single trial to understand this. Their purity can always be relied upon. They are composed of the celebrated Calisaya Bark, Cascarilla Bark, Dandelion, Chamomile Flowers, Lavender Flowers, Wintergreen, Anise, Cloverbuds, Orange-pee Bnake-root, Caraway, Coriander, Burdock,

S.-T.-1860-X. &c. They are especially recommended to clergymen, pub licspeakers, and persons of literary habits and sedentary life, who require free digestion, a relish for food, and clear mental faculties. in these Bitters what they have so long looked for. They purify, strengthen and invigorate.

They create a healthy appetite. They are an antidote to change of water and diet. They overceme effects of dissipation and late hours. They strengthen the system and enliven the mind. They prevent missmatic and intermittent fevers. They purify the breath and acidity of the stomach. They cure Dyspepsis and Constipation. They cure Diarrhea, Cholera and Cholera Morbus. They cure Liver Complaint and Nervous Headache.

They are the best Bitters in the world. They make the weak man strong, and are exhausted nature's great The following startling and emphatic statements can be seen at our office. Letter of Bev. E. F. Chang, Chaplain of the 107th New York Regiment:

NEAR ACQUIA CREEK, March 4th, 1863. Owing to the great exposure and terrible decomposi tion after the battle of Antietam, I, was utterly prostraied and very sick. My stomach would not retain medicine. An article called Plantation Bitters, prepared by Dr. DRAKE, of New York, was prescribed to give me strength and an appetite. To my great surprise they gave me immediate relief. Two bottles almost allowed me to join my regiment. * * * I have since seen them used in many cases, and am free to say, for hospital or private purposes I know of nothing like them. Bev. E. F. GRANE, Chaplain.

Letter from the Rev. N. E. GILDS, St. Clairsville, Pa. GENTLEMEN:-You were kind enough, on a former ocasion, to send me a half dozzen bottles of Plantation Bitters for \$3 50. My wife having derived so much benefit from the use of these Bitters, I desire ter to continue them, and you will please send us gix bottles more for the money eaclosed. I am, very truly, yours.

N. E. GILLIS, Pastor Ger. Ref. Church, SOLDIERS' HOME, SUPERINTENDENT'S OFFICE,) CINCINNATI, OHIO, Jan. 15th, 1863. I have given your Plantation Bitters to hundreds of eur noble soldiers who stop here, more or less disabled from various causes, and the effect is marvellous and

gratifying. Such a preparation as this is I heartly wish in every family, in every hospital, and at hand on every battle G. W. D. ANDREWS, Superintendent. Dr. W. A. CHILDS, Surgeon of the Tenth Vermont Regiment, writes:-"I wish every coldier had a bottle of

depilatory recommends itself as being an almost indispensible article to female beauty, is easily applied, does not burn or injure the skin, but acts directly on the roots. It is warranted to remove superfluous hair from low foreheads, or from any part of the body, completely, totally and radically extirpating the same, leaving the skin soft, smooth and natural. This is the only article used by the French, and is the only real effectual depliatory in existence. Price 75 cents per package, sent postpaid to any address, on receipt of an order, by
